

EMPACADORA DEL GOLFO DE MÉXICO S.A.DE C.V. (EGMX)

Empacadora del Golfo de México has a long history as a canner of vegetables and fruits. The firm's history began in the fall of **1940**, when a group of investors from México City bought a small, family-run cannery and founded Empacadora del Golfo de México. After **80 years** of hard work; it has become one of the largest vegetable canners in Mexico. Its brands "**FARO**", "**JAROCHITA**" and "**LA COMADRE**", are well known and preferred by the consuming public in most of México, large parts of the United States as well as in several other countries where the company is sending its products. Also, a large percentage of our sales are under our customer's private label.

We have the capacity to pack canned vegetables in: cans, pet jars, plastic bags, plastic buckets and plastic drums. Since March 2002, Empacadora del Golfo is operating in a new and modern facility suitable for the handling and processing of food that will allow the company to grow during the next years and adapt to the new market demands.

Our product line includes green tomatillo, chipotle and serrano peppers, Mexican hot sauces and jalapeño peppers in different presentations. Our brands have been for many years the standard for flavor and quality in all markets where we compete.
